GUIDANCE BULLETIN

Proclamation and Emergency Order No. 2021-13

This interpretive guidance concerning Mayor Rick Blangiardi's Proclamation and Emergency Order No. 2021-13 ("**Order**") will be periodically updated.

(Updates as of September 27, 2021)

Safe Access O'ahu (Order 10)

Order 10 of the Order requires "covered premises" to generally refuse entrance to persons (employees and patrons) who fail to display proof of full vaccination and matching identification. This requirement applies to:

- All establishments that offer food or beverages for on premises consumption anywhere on their controlled premises whether indoors or outdoors.
- Entertainment and recreational settings: bowling alleys, arcades, pool/billiard halls, movie theaters, museums, other recreational game or entertainment centers.
- Indoor "gym and fitness facility operations" and "activities and group physical activity classes" and indoor facilities for indoor organized sports.
- Indoor portions of botanical gardens, aquariums, zoos, sea life attractions, commercial recreational boating, public and private commercial pools, shooting/archery ranges, and other commercial attractions (cultural attractions, go kart, mini golf).
 - NOTES: if a commercial attraction (listed above) has both indoor and outdoor portions, the establishment must check for full vaccination status (or one of the exceptions) to allow entrance to the indoor portion (or check everyone prior to entry). With regards to employees, unless the employee at issue works exclusively in the outdoor portions, the requirement applies.

For any patron age 12 to 18 that does not have a government-issued photo ID, the covered entity may accept other reasonable proof of identity to match the patron's vaccination record (or negative test record), such as: a school ID, copy of a birth certificate, a parent's ID with matching last name, etc.

Effect of Governor Ige's EXECUTIVE ORDER NO. 21-05
Re: Statewide Limits for Social Gatherings, Restaurants, Bars, and Social
Establishments ("GOV's EO 21-05")

GOV's EO 21-05 implemented state-wide restrictions on social gatherings (10 indoors/25 outdoors), high risk activities (e.g., restaurants, bars, gyms), and requires "professional events" expecting more than 50 attendees to "notify and consult with the appropriate county agency reasonably prior to the event." These restrictions and the notice requirement superseded less restrictive provisions of the various counties' COVID-19 related rules and orders. The Order has incorporated these things to the extent necessary.

Organized Indoor/Outdoor Sports vs. Indoor/Outdoor Events

For purposes of the Order, the restrictions and capacity limitations on Organized Indoor Sports and Organized Outdoor sports (including spectator limitations) apply to recreational level sports. For all other commercial sporting events (e.g., college sports, etc.), the relevant restrictions and limitations that apply to Indoor Events, Outdoor Events I, Outdoor Events II, Outdoor Events III, and Public Competitions are applicable. Under the Order, these event categories are not allowed to operate within the City through October 19, 2021. However, commercial sporting events (such as college sports) may take place without spectators.

All funerals and weddings are subject to the indoor/outdoor gathering limits

Although the following previously allowed categories of designated businesses and operations have been temporarily prohibited under Order 1:

- 31. Structured static events;
- 32. Wedding event operators;
- 34. Social Establishments;
- 35. Indoor Events;
- 36. Outdoor Events I;
- 37. Outdoor Events II; and
- 39. Public Competitions

this prohibition should be read as prohibiting individuals from operating under these enumerated "designated businesses and operations" categories, which are listed in Exhibit B of the Order. It would not foreclose any event, of any kind, of fewer than or equal to 10 people indoors/25 people outdoors, because such event may operate as a social gathering under Order 3 of the Order. As such, under the Order, all funerals and weddings are subject to the limits on attendees/participants: 10 indoors and 25 outdoors, consistent with the general limitations on gatherings (Order 3 of the Order). Funerals and weddings may not be held with more attendees/participants as "spiritual services." These facially neutral restrictions apply to all funerals and weddings within the City.
